		Week of 9/20				
		Monday	Tuesday	Wednesday	Thursday	Friday
Luna	What did you do yesterday?					• Plan data structure, models, etc.
	What will you do today?					• Finish Portofolio, consolidate links, prepare for weekend
	What is blocking you?					• Skill Matrix
Charles	What did you do yesterday?					• Helped out with planning the data structure for forums (ForumNode) and endpoints, researched UI designs
	What will you do today?					• Wait for instruction from Luna and go from there, help others
	What is blocking you?					• Need info from Users team about what data is being stored in the Users table
Hiroshi	What did you do yesterday?					• Created DynamoDB table, started GET endpoint
	What will you do today?					• Keep working on endpoint. Create a Lambda, set up pipelines
	What is blocking you?					• ....
Sean S	What did you do yesterday?					• Planning stuff. Mostly nothing though.
	What will you do today?					• Portfolio. After that, unsure.
	What is blocking you?					• What do I even put for p3 in portfolio???

		Week of 9/27				
		Monday	Tuesday	Wednesday	Thursday	Friday
Luna	What did you do yesterday?	• Created a sequence diagram • finished portfolio • got organization done	• wrote most logic for Add Comment • Got AWS Toolkit working	• Fixed Add Comment and added business logic • Wrote Add Comment test suite • Started work on UI	• Added logging to AddComment • Fixed sam-template and permissions • wrote snackbar for UI • made state for forum UI • wrote an axios call for add comment	• Fixed deployed endpoints • Wrote UI tests • documentation on UI
	What will you do today?	• Work on Add Comments Lambda	• Writing Tests • Writing Business Logic • Referential Integrity	• add logging to Add Comment • continue UI work •	• test deployed endpoints • write UI test(s) • get UI setup	• Finish up add-comment • Pick another user sotyr to work on •

	What is blocking you?	• Need to set up AWS toolkit • QC	• Learning how to write tests for lambdas	• figuring out UI • lambdas finished •	• test deployed endpoints • merge add-comment into forum • write UI tests for add comment	• challenging to test rich-markdown-editor when not in read-only mode • coding takes time •
Charles	**What did you do yesterday?**	• Created Lambda for post Thread. • Wrote Threads POJO, ThreadsRepo and ThreadService classes. • Began unit testing for Lambda.	• Finished writing the unit tests for the postThread lambda • Worked with Hiroshi to get deployed postThreads lambda working	• Created Lambda for PutThread (Threads POJO, Repo, service class, and handler) • Wrote unit tests for PutThread lambda with Sean • Fixed issue with PostThread not incrementing Subforum's child count.	• Created Lambda for PutComment (Comments POJO, repo, service class, and handler) • Wrote unit tests for PutComment lambda • Added logging/documentation to PutComment, PutThread, and PostThread	• Tried to help fix lambdas • Worked on AddThread component; still needs testing
	What will you do today?	• Continue unit testing PostThread lambda • begin work on available trello user story	• Get started on PutThread lambda	• Continue working on completing all of the Lambdas	• Work on UI (add thread) • Fix lambdas if bugs arise	• Continue working on user stories and components for UI •
	What is blocking you?	• Understanding the lecture from this morning • QC/studying	• AWS Toolkit for testing lambdas locally	• Nothing right now	• Learning Redux	• Nothing right now
Hiroshi	**What did you do yesterday?**	• Built 3 pipelines • Wrote logic for GetComment	• Helped other teams with their lambdas/pipelines • Worked with team to get the deployed postThreads lambda working •	• Set up the rest of the pipelines • Set up endpoints on API Gateway • Struggled to get query to work on getcomment	• Finished GetComment API • Fixed all connections to deployed API Gateway •	• Helped fix bugs • •
	What will you do today?	• Write tests. • Build more pipelines if needed	• Write tests • Ensure GET methods return what we expect, including exceptions thrown and how they're handled • Maybe coordinate with team so our code looks similar	• Get query to work on getcomment • Write tests • Finish getsubforum once query is figured out	• Try to get started on UI • •	• Do assignment • UI •
	What is blocking you?	•	•	• Dynamo • •	• React/Redux • •	• • •
Sean S	**What did you do yesterday?**	• Helped create post thread handler	• A whole lot of nothing.	• Unit tests for PutThread with Charles • Update child count for PostThread • Set up AWS toolkit and whatnot	• Created lambda for getsubforum • Tested getsubforum... I guess. It's one test, I don't think it counts	• Started "getSubforum" UI, but DNF •
	What will you do today?	• Finish thread post API?	• Set up AWS toolkit and learn about lambda testing • Help Charles with putThread lambda • Write tests for putThread	• Finish the remaining lambdas probably • UI if there's time, but prio is remaining API	• UI stuff cuz lambdas are DONE BAYBEEEE	• Finish getSubforum, or at least a majority of it • •
	What is blocking you?	• QC mostly.	• Nothing	• Nothing	• DONT STOP ME NOOOOW • IM HAVIN SUCH A GOOD TIME • IM HAVIN A BAAAAALL	• Got very stuck yesterday on how to start. • •

		Week of 10/04				
		Monday	Tuesday	Wednesday	Thursday	Friday
Luna	What did you do yesterday?	• finished addComment • helped troubleshoot • helped setup rich-markdown	• added UI components together • fixed minor UI issues • helped test	• Styled forum • wrote tests for a couple components •	• • •	• • •
	What will you do today?	• style • help testing •	• Update UI styling • Test UI components •	• Fix error messages (*dispatch*) • write tests • start presentation • Clean up database	• • •	• • •
	What is blocking you?	• time • inevitable bugs	• rich-markdown-editor • •	• how to edit presentation • •	• • •	• • •
Charles	What did you do yesterday?	• Helped fix Lambda bugs • Mostly finsihed AddThread, UpdateThread, and UpdateComment components • Display comments on theads, • Worked with Jose on Navbar, and helping troubleshoot	• Created buttons/modals on subforum and thread pages for updating threads and adding threads • Worked on testing AddThread, UpdateThread, and UpdateComment components		• • •	• • •
	What will you do today?	• Buttons on Thread page and the subforum page for adding threads, updating threads • Populate UpdateThread, UpdateComment, and AddThread with real data from state	• Working with Alfonso and Sean on the UI		• • •	• • •
	What is blocking you?	• Time, panels • Bug fixes	• Testing UI		• • •	• • •
Hiroshi	What did you do yesterday?	• finished getComment and watched you guys integrate it • •	getComment UI tests	• • •	• • •	• • •
	What will you do today?	• btn for editing comments • study for panels • have timePosted show how long ago it was posted	• work on tests • final touches to forum UI •	• • •	• • •	• • •
	What is blocking you?	• panels • •	• • •	• • •	• • •	• • •
	What did you do yesterday?	• Finished getSubforums functionality • Finished getThreads functionality	• Tests for getSubforums and getThreads • •	• • •	• • •	• • •

	What will you do today?	• Panels • Write tests for those two components	• Work with Alfonso and Charles on UI • •		• • •	• • •
Sean S	What is blocking you?	• P A N E L S • Not knowing how to do UI tests	• Nothing. I am an absolute coding unit. • •		• • •	• • •
